## Gold Rush at Princeton B. C.

The "rush" for gold has caused great excitement at Princeton B. C. so declares the Similkameen Star. The arrival of L. A. Manly from Princeton confirms this report. Not since the days of the Klondike has there been such a gathering of miners and prospectors. Nothing beyond the staking of claims will be done until spring. The quartz carries free gold in high paying quantities and the creek leading from Steamboat Mountain will be plated with mining claims.

There is no doubt but that stamp mills will be erected. The news of the gold strike at Steamboat Mountain has created great excitement in Spokane, Seattle and Vancouver.

Mr. Manly and his partner Mr. Swanson also visited Victoria. This city is experiencing an era of unprecedented prosperity. Five permits for large blocks are in course of construction as well as the rebuilding of the enlarged Spencer departmental store. All of the northwestern states are quiet owing to crop shortage. The western provinces are in a much better financial condition.

The Great Northern railway which is expected will be built next year from Princeton B. C. to the coast will connect at Hope B. C.

## Dance a Great Success

The grand concert and dance given by Kosiolphe Lodge at Bellevue was a great success. The program rendered was most interesting and several entertainers were frequently encored. W. Richardson of Coleman, who was the pianist of the evening received many plaudits from the delighted audience.

## SPORT

Winnipeg fight fans claim they have found the coming champion, the man to whip Jack Johnston. He is also colored, "Big Smoke" Robinson is the name he goes by. He has a splendid physique, is a good boxer, has terrific wallop and apparently plenty of pluck. He has put to sleep every thing in the heavyweight line in the west by the knock-out route and the Winnipeg fans who are legion, are trying to match Robinson up against some of the real classy big fellows. Pugilism is booming in Winnipeg just now and there are weekly fights with a thousand or two in attendance.

It is not known yet whether Coleman will have a senior hockey team or not.

Ski-jumping may become popular in Coleman.

## Rev. W. MacMorine Leaves

Rev. W. MacMorine and son, left on Monday morning for Ottawa, Ont.

Mr. MacMorine preached his farewell sermon on Sunday evening.

A new rector will take charge of St. Alban's early in the new year.

## A Mystery at Bellevue

Human Hand Found. Developments are Awaited. Police Investigating

What may prove to be a sensational murder, was discovered by De Kota, of the Clark Picture Co. at Bellevue on Tuesday.

Mr. De Kota while engaged in billing Bellevue accidentally came across on the side of the

road a human hand, cut off at the wrist. The hand resembled closely that of a young girl. That the victim came to her death by foul means is thought by all and the police are instituting an investigation into the matter.

## Happenings in Coleman and Vicinity.

Mrs. Andrew McLeod visited Michel on Tuesday.

Nurse Docherty was indisposed last week but is now much better.

Mr. and Mrs. T. M. Murray's little girl Jean, has been quite ill this week.

Mrs. John McKeegan is suffering from a severe cold.

Born—On Nov. 23rd to Mr. and Mrs. Ashurst, a son.

Mark Drumm is visiting his parents in Michigan.

Skating will commence in the rink on Saturday.

A. M. Morrison has been appointed a Justice of the Peace.

Rev. T. M. Murray will preach on Sunday evening on the words, "The common people heard him gladly."

Rev. Mr. Campbell, secretary for the Alberta Bible society, preached in the Institutional church, last Sunday.

Mrs. J. Snow left on Tuesday morning to join her husband at Shore Lake.

A. G. Trelle, of Edmonton, is in town. Trelle is seeking to dispose of the Pacific hotel.

Mr. and Mrs. J. Scott, returned from Halycon Hot Springs on Monday. Mr. Scott is now able to resume his duties.

John Usworth was able to be moved to his home on Tuesday. Mr. Usworth is doing well after a serious operation.

There will be a meeting in the Council Chamber on Wednesday night at 8 P. M. to discuss the advisability of organising a hockey team.

H. Gato was in town on Sunday last.

Miss Ross is visiting friends in Calgary this week.

Mrs. Wilson and the Misses Orr visited Blairmore this week.

Don't forget Clark's moving Picture Show Saturday.

Mrs. J. Rudd of Bellevue visited Coleman this week.

Don Cate left on Tuesday for Cranbrook.

For skating tickets apply to the office in the rink or the Barber Shop.

Real estate men living outside of Coleman will now be compelled to pay a license. This is one of the great benefits of incorporation.

We congratulate Squire Mr. Morrison. Is yet a young man but he has spent his time most profitably. Coming here as a miner he has risen to be town councillor, postmaster and now Justice of Peace.

Mr. and Mrs. J. B. Nicklin arrived in Coleman this week from Vancouver. They are guests of Mr. and Mrs. E. Disney.

E. Nausman was injured by having a rock fall on him in the mine on Wednesday. He is in the hospital and doing well.

All of the coal company's pipe lines have been covered with an extra layer of clinders.

Mr. J. Lebeau fell on the ice of Old Man river on Monday, and suffered severe injuries, requiring the attendance of doctor. He is able to be out again.

Plans are being prepared for an up-to-date summer hotel in Coleman. It will be bungalow in style and will be a great attraction to tourists. This will be another of Coleman's fine assets.

A man is slain town last night, by mistake, swallowed medicine intended as an application for his leg. Only by the timely arrival of a physician with a stomach pump was the man's life saved.

The people of Coleman, while very pleased to have Mr. Paris back again are very sorry to lose Mr. and Mrs. R. R. Webb, who were both very popular in this town. What is Coleman's loss is Fernie's gain, and we wish them every success in their new home.

The many friends of Mr. E. Pavier will be sorry to hear that while returning from his work in climbing the steep hill near his home, he slipped on the frozen ground and sustained severe injuries to his knee and leg. His physician, we understand, believes he will be about in a week or so.

On Sunday last as a son and daughter of Mr. R. G. Vincent, of Blairmore were driving to Coleman, the horse became frightened and ran away. Throwing them both out on a pile of stones. The son's leg was broken, but Miss Vincent escaped with some slight bruises. After being attended to by Dr. Porter, they were taken to their home in an auto, where we understand they are both doing well.

"Curfew shall not ring to night." It will ring on January 1st, though.

The Sunday School of St. Alban's church will be continued. All teachers and scholars are requested to be present on Sunday afternoon at 3 P. M.

The Calgary Herald delights in opposing Premier Sifton. The Herald has at last resolved to do the bidding of the Calgary Conservatives.

Lloyd George likens the British Aristocracy to the Canadian Indian. The only difference is, that the redman will soon have a vote while the Lords will soon theirs as a body. Both are stately and dignified.

A young woman's Bible class was organized on Tuesday evening in connection with the Institutional church. Officers were elected. The class will meet for Bible Study on Sunday afternoon at 3:45 in the club room. The first regular meeting will be held on Dec. 4th. All women are cordially invited to attend.

The junior editor of the Enterprise who "Butted in" on the same paper, has commenced his questionable tactics of undermining the miners of Blairmore. He, no doubt, will be kicked out of another printing office. W. J. Bartlett won't stand him any longer.

## COLEMAN WINS GRAHAN CUP

The locals returned from Michel on Sunday night with football laurels and a handsome football trophy the Grahan Cup. Twice in eight days have the Coleman team succeeded in winning a championship cup. They are now the undisputed champions of the Pass.

Local rooters and football enthusiasts accompanied the team. The game commenced at 2:30. The Michel team was the strongest that Michel had ever gathered together.

Both teams were very evenly matched and the play was always, well contested. Towards the end of the first half, Coleman scored the first and only score of the game.

A rousing reception was tendered the local team on their return.

## Funeral of Mrs. D. Hyslop

The whole community was shocked to learn on Friday morning last, that Mrs. David Hyslop had died early that morning. Mrs. Hyslop leaves behind her a young child which is doing well.

The funeral took place on Saturday afternoon from the family residence. Service was held in the Institutional church the Rev. T. M. Murray conducting the service. Mr. T. W. Davies conducted the funeral ceremonies.

To Mr. Hyslop, brothers and sisters of the deceased, the MINER conveys its sincere sympathies.

## Editor Gets Time

St. Paul, Nov. 22—F. D. Warren of Girard, Kan., editor of the socialist paper, Appeal to Reason, must serve six months in the federal prison at Leavenworth, Kan., and pay a fine \$1000 imposed by a jury in the United States court in Kansas. The sentence of that court was affirmed by an order from the United States circuit court of appeals filed to-day.

Warren was accused of sending through the United States mails envelopes on the outside of which was printed, "1000 reward will be paid to any person who kidnaps Ex-Governor Taylor and returns him to the Kentucky authorities."

The indictment charged that the words were scurrilous, defamatory and threatening in character.

The local union have engaged Professor William Prince of San Gabriel mission California to give an illustrated "travel lecture" on all the provinces and states of the Pacific Slope. Special moving pictures will illuminate the lectures. The proceeds will be devoted for the benefit of the Miners hospital. The lecture will be given on Tuesday Nov. 29.

The letter received from Mr. Morino will be published next week.

### TECHNICAL EDUCATION

The commission on technical education which has been appointed by the Dominion government, is making a thorough investigation at all industrial and trade centres of Canada. The efforts of the commissioners are greatly improved by sworn testimonies of public officials, teachers and leaders of public opinion. That Canada stands in need of an adequate technical educational system cannot be denied. The effort of our correspondence school amply demonstrates the individual desire for higher technical education. Once this question is taken hold of by the state, the youth of our country will find themselves in a much better position to grapple with the duties of life.

### PLACID IGNORANCE

The junior editor of the Blairmore Enterprise without any alarming placidity, tells his soft ring readers that there is nothing in the coal mining regulations against using wet coal for tamping. This absolutely, is one of the substances which the regulations prohibit.

First. Because it is liable to become absorbed with moisture and then produce coal gas.

Second. Wet coal will not pack. It will always cause a blow out if used.

The editor makes a bad case out for the company, in whose behalf he would like to pose as a daring upholder.

The poor miners, he takes a crack at them too. He would have a special physical examination for them. He would make of them all, fine well-built, able-bodied men. Grand in its prospect, ludicrous in its very extreme. Does he not know that it is the policy of the coal companies to engage the healthiest and most able-bodied men they can obtain. In the Pass, the companies are particularly fortunate in obtaining men splendid in both health and physique.

Had the junior editor of the Enterprise a mental examination to pass, we are sure the readers in Blairmore would be saved much time in reading empty phrases and spontaneous thought. If he would spend thirty minutes a day in quiet research, he might mend. Some of his specialties are simply crude.

The Harold Nelson Opera Co. presented "Pierre of the Plains" on Saturday and "The Wolf" on Monday evening. "Pierre of the Plains" proved a strong drama and the great Canadian Actor Nelson was frequently applauded. "The Wolf" was produced with great dramatic effect. French Canadian life was depicted in all its quaint and impulsive characteristics. It is hoped that this company will again visit Coleman in the near future.

### Note and Comment

Russia loses her foremost literary genius in Count Tolstoi. He was the one bright spot in all dark Russia.

Just what R. B. Bennett intends to make of himself politically is not known.

The resolutions which Michener hands the legislature are much the same as New Year ones. They last a week.

Coleman maintains a steady lead in every department of the postal service in the Pass.

The Clearing House returns are also considerably in advance of any town in the Pass.

The sign of the "white hand" has appeared in Bellevue.

Both parties in Britain are seeking to use Canadian statesmen for catpaws. They all have a splendid catpaw in R. R. Gurney. Gurney would pull fire out of Hades to even save his own conscience.

Alberta will now be blessed with a compulsory school Act. There are now only two provinces in the Dominion which have not compulsory school attendance Act. That is Quebec and Manitoba. What would a cosmopolitan country be without a compulsory Act?

### Coleman Leads

### Rod and Gun

While big game hunting supplies the dominant note in the November Rod and Gun in Canada, published by W. J. Taylor, Limited, Woodstock, Ont., there is in the same issue, plenty of material for sportsmen who are not able, for various reasons, to go after moose, deer or bear. In the opening article, Mr. Bonnyville Dale tells how Indian boys make clever hunters, trappers and fishermen and with what skill they decimate the inhabitants of the forest. Exploration in the Nepigon country, fishing and mountaineering topics, with many other papers and some fine verses, fill a number which should find its way into all hunting camps. Sportsmen, wherever they may be found, can enjoy some pleasant half hours by dipping into its contents, assured that from beginning to end they will find much to attract and interest them. The completeness of the issue in covering the whole wide field of Canadian sport gives it distinction and goes far to account for the standing the Magazine has won and continues to deserve.

### Opera Notes.

Princess Karma was presented by De Kota on Wednesday evening in the Opera house. This is a very clever play and De Kota was much applauded on his splendid efforts.

Clark's moving Pictures will be again exhibited in the Opera house on Saturday. New western features are on the bill for the evening.

The rebuke to the "gallery" handed out by Harold Nelson was in place, and should not escape the notice of the opera house manager.

De Kota will present the beautiful Act, entitled, "The flight into space of Princess Karma" on Saturday Nov. 26th, in the Opera House.

## FRANK

The addition to P. Burns store is nearing completion.

Coroner Pinkney was down from Lille on business last week.

Harvey Murphy is cutting Timothy Eaton's prices this week.

J. D. S. Barrett was in for church last Sunday morning.

J. Richardson's house is still under quarantine.

John William Sadler, of Coleman, was in town last Friday.

W. Wolstenholme was down from Blairmore, last Thursday.

Rev. J. S. Hunter was in town last week.

The report that Mrs. Crimen was found under the Frank slide is not true.

Mr. and Mrs. J. J. Thomas went up to Coleman last Thursday.

Mrs. F. M. Pinkney of Lille, was in town on Saturday.

Mr. and Mrs. A. Cheshire were down from Blairmore on Saturday.

A. J. Johnson paid a business trip to Pasburg on Monday.

Inspector Belcher of the R. N. W. M. P. is in town this week.

J. F. Farmer, manager of the Union bank here, went up to Lille last Thursday.

A. Martin, manager for P. Burns & Co., was in Blairmore several days this week.

Miss M. Howe of Blairmore, was the guest of Mr. and Mrs. Gresham on Sunday.

C. Moore, the genial Frank barrister, was in Blairmore on legal business last Friday.

The Lille special train passed through on its way to Coleman last Thursday taking passengers to hear the Welsh choir.

The Goyette block is now fully occupied, there being a dry goods store, barber shop and pool room, bowling alley, bakery and furniture store.

R. Smallwood, who until recently was employed by J. W. Gresham, has opened up the blacksmith shop just vacated by H. Gebro in Blairmore.

J. W. Gresham has accepted the agency for the Manitoba Bridge and Iron Works Co., for Southern Alberta and is prepared to give estimates and plans for all kinds of steel girders, and steel reinforcements for concrete work.

## BLAIRMORE

E. Morino was in Coleman this week. The grading is almost completed for the erection of the Opera House.

Brown's and Clark's pictures have been the rage in town this week.

The miner who was hurt at Blairmore last week is improving.

The palatery are working on Ralli Bros., new store.

Fryer and Sinclair's carpenters are working on the 8 hour day system.

Rev. A. J. Langlois preached at Lille on Sunday last.

"Joe" is going across on the water works construction.

Mrs. J. W. Gresham was up from Frank on Wednesday.

Is it lawful for young men to carry "other" girls babies after dark.

Smith and Hargraves made a fine haul on pay day.

The Hypnotist's show here on Monday night was a huge success.

A bunch of Pagan Indians are camped just east of the mill.

Mr. and Mrs. A. Cheshire spent last week end in Lille, being the guests of Mr. and Mrs. F. M. Pinkney.

Rev. W. Macmorine delivered his farewell sermon to his Blairmore members on Sunday afternoon.

Messrs. Bartlett, senior, Bartlett, junior and Barrett took in the show at Coleman on Monday night.

Mrs. Rudd, proprietress of the Southern hotel, Bellevue, was in town on Thursday last.

Lost, stolen or strayed—The owner of Oakville ranch, Carbondale, Alberta. All information to be addressed to The Enterprise, Blairmore.

A peddler was summoned before J. W. Gresham, J. P., for selling goods without a license and was fined \$12.00 and costs.

Much excitement was caused by the breaking of the scaffolding in P. Burns new store on Saturday afternoon, painters and carpenters went down with a bump.

Mr. Woodyard, of Calgary, who is superintending the construction of the fine store and warehouse for P. Burns Co., on Victoria St., W. went to Coleman several days this week to look over the work which is being done on the new ice box for the company there.

# The Proper Care of Your Floor

**A** FLOOR must nowadays be in good condition or the owner is discredited, and justly so, for the proper care is not difficult and the details of the care should be mastered by every housekeeper who has discarded carpets and uses the more sanitary rugs. Now an old pine floor is not hopeless. Of course, the hardwood floor is desirable, but much can be done to the cheaper wood to bring it into attractive harmony with the rugs of the modern rooms.

First fill all cracks and holes with putty or, better still, regular "filler," purchasable at any store at which paints are sold. Apply it with a knife, pressing it into the openings and scraping off any excess, so the object is to give a perfectly smooth surface for the working basis of the subsequent steps in the process.

When this is assured, apply a stain. Many varieties are available, and you will find that success attends a careful following of the directions. It is to the manufacturer's credit that they make things easy for the home painter. Paint with a broad brush with and across the grain. This fills the pores and gives an even coloring, and at this step it pays to make haste slowly.

When giving a wax finish the wax should be shaved and sprinkled and then rubbed well into the surface with a weighted brush. Short brushes are on the under surface and a reversible handle is attached to the metal top. Rub firmly and with the grain, giving long even strokes until all wax disappears.

When giving the necessary oiling it is easier on the caretaker's back to use a long-handled brush with flexible

bristles. Do not forget that the floor will absorb a certain amount and no more. Any excess liquid will only attract dust. It is better to give a second rubbing than to be compelled to remove the oil because of a careless liberality at first.

Precautionary methods are perhaps as important as the treatment that brings a floor into good condition. When a floor is well colored and has a smooth finish, it is not difficult to keep it so. To prevent scratches from table and chairs, paste felt disks on the ends of the chair legs. These are better than the rubber caps that are used by some people, for they are not visible, but just as effective.

As a parting suggestion remember that bare floors upon which rugs are placed should be kept attractively clean. This does not necessitate a back-breaking

cleaning process on hands and knees. Floor mops should be used to wipe the dust from the surface. A thorough oiling once a week is all that a floor requires.

"I object to bare floors," said a woman the other day, "because there is always so much dust to be seen." It was hard to convince this housekeeper of the old Chinese school that the dirt is there on her carpets just the same, only she does not suspect its presence, and that carpets are the greatest dust catchers of modern housekeeping.

More and more are rugs that can be removed and cleaned out of the house being used. The floor beneath must be attended to, and here are a few practical suggestions along the way.

## WHEN SEEKING A POSITION

**S**EEKING for a position, sometimes termed a "job," is without exception one of the hardest things a girl has to contend with when she enters the business world. Although she may be just as confident of her ability as we are that she is, she is not usually so. It is a hard thing to convince the other person of that fact. The best plan, then, is to study self-assurance. Be absolutely sure of what you know, and know it well. Meditate brains have no place in the business sphere if success is what you are after. It is the survival of the fittest every day in the week. If you are confident of your ability, do not be afraid to say so, and once you get your footing on the ladder get a good hold on the sides and keep on until you are at the top.

First of all, know what you are able to do. Study, work, read and observe until you know it thoroughly; so well, in fact, that competition from any one else would be a difficult matter.

If you are a stenographer, the mere ability of putting down potboilers and reading them in any sort of a haphazard manner will not be sufficient for you to ask a man for a position and expect a good salary. Good, common intelligence is necessary; an eye to progressiveness, a very good knowledge of grammar, spelling and punctuation—the last three being the most essential requisites to success along that line. Careful reading of good literature is another great help.

If you were to ask any business man what are the chief faults he has to contend with, nine times out of ten he will tell you that the average stenographer has no common intelligence, that she cannot transcribe carefully; and to punctuation and paraphrasing, a letter of one sentence without a comma would not be an uncommon affair. When another thing is the mechanical way in which so many work, going along in a listless, hope-to-hill-the-mark fashion, expecting to luck that things will come all right and with no thought concerning the improvement of their minds.

The same talk applies to the girl who is going to do clerical work or bookkeeping, or, in fact, any kind of work. Every business man likes his clerks to be good penmen, and, indeed, in some cases, I think that they dwell on that point too much. Rapidity and accuracy in figuring are likewise essential, but the chief one is carefulness. Posting to the wrong account is a sin that is hard to be forgiven and one that a business man dislikes very much; for what is the use of sending out bills and statements if the amounts and totals cannot be relied upon? Even if you do write a beautiful hand and can get rid of work in a miraculous fashion, that is not going to balance the mistakes that not only keep you weeks hunting a balance and sending out corrected state-

ments, but oftentimes cost your employer many dollars.

Now, to start out with, dress neatly and simply in a well-bred, ladylike manner. If you have already had some experience, a good idea is to write to business houses of a like nature, tendering your letter as an application for a position. As a rule, they are very courteous, and if they have nothing at the time will advise you and hold your application (if acceptable) until such vacancy should occur. In writing letters of application or answering advertisements, get to the point. No business man wishes an essay of a history of your life to read. He wants plain facts—that is, if you can do your job along the particular line in question and what you wish as a compensation. When possible type your letters, giving the reader some idea of your neatness and arrangement of such, putting forth the necessary facts and asking to be favored with an interview. When called to clerical work, always write in long hand, using good paper in white or cream. Colors show bad taste. If you feel that your services are worth a certain figure and it is cut down, don't always refuse. First find out what the chances of advancement are and how soon you can have your price, your ability to show what you can do on the other side of the scale.

When it comes to the newly initiated, the game is a hard one. Few people want an inexperienced girl, never realizing that a good inexperienced girl is the best one in the world to break into new ways.

When you start out to hunt a position, unless you are very familiar with the business part of the city, submit all your cards, addresses and propositions to your father; if you have one, or to an older brother, or to some business man in whose word you can put full reliance. The crooks are not all in jail, and there are still men who will have a girl work for them for two or three hours, even a half day, on the plea of finding out if she will suit; and in this way getting a good penmanship at work done free of cost. Do not take the first thing that comes along, unless in hard straits; but if you must do that, keep your eyes open for something better.

All the typewriter concerns to be found in the larger cities are always willing to help girls in need of positions. The filling of an application in some cases a small test on the machine are all that is necessary.

A great many houses insist upon a test in order that they may get some idea of your ability. One letter, in some instances two, is usually enough. To do a good test, girls, but just get together an extra dose of nerve and pitch in. Your friend downstairs may have what she calls a "mess," but keep pushing ahead, and who knows but

what you may get a "position" and be the envy of the community? Above all, never give up hope, for no matter how hard your work might be, just try to comfort yourself that it might be a great deal worse. Remember that behind every cloud the sun is shining, and the time may be only a day off when it will be all sunshine for you.

**A Word in Time**

**TO CLEAN White Kid Boot Linings**—The best method of cleaning white kid and white sheepskin linings of boots is to sponge with benzine. Superficial dirt can be cleaned off with a piece of linen rubber, such as is used for removing lead pencil marks.

**For Baked Custard**—When making baked custard, if the milk is warmed before adding the eggs no water will settle in the bottom of the baking dish.

When sweeping turkey, axminster or any thick piled carpet, always brush the way of the pile, and it will look fresh and bright for years.

### To Keep Umbrellas

**N**OTICING that the sacks of a street-cleaning contractor were marked "I" - "rge letters. "Stolen from X Y Z," a bright woman had the idea of applying the same principle to the too easily stolen umbrella. Inside each of her umbrellas, she wrote in visible ink as soon as raised, there appears now a strip of white cloth, marked in plain letters, "Stolen from Mary Jones." The method may be extended to other temptations to the unwary, such as handbags and raincoats, evening cloaks and overcoats.

Only one may imagine the embarrassment of the innocent borrower when he is caught with this seemingly incriminating evidence! And if only the bolts would apply this method to the silver snuff box, the owner's name and address would be plainly printed on the inside of each flap, and renewed whenever it is opened, and renewed so that there will be no excuse except dishonesty for their disappearance.

### For Rubber Overshoes

**C**HILDREN especially lose overshoes with alarming frequency; we older ones are by no means exempt. After a few exchanges of a beautiful new pair for two that look as if they had never met before, unless possibly in the workhouse, the unfortunate will be glad to try the method recommended by a former victim who is such no longer. This is to sew a loop of black tape in the back of each overshoe, at the top of the heel, and to hang them up with the umbrella, and tucked inside when the overshoes are worn, and will not show.

Before this, the owner's name and address would be plainly printed on the inside of each flap, and renewed whenever it is opened, and renewed so that there will be no excuse except dishonesty for their disappearance.

### Work for the Tot

**T**HE little child, because it is "father to the man," is a very important consideration in the day's order of work. He should receive his recognition and as soon as possible be given some responsible work to do.

Few mothers realize the risk of overcaution and overattention to their children after they are old enough to play and romp about. A child is happier with few and simple playthings than with a multitude of complicated toys. There is no such good idea or good training as making one's self useful in doing little things like work, and it is cruelty to deprive the child of this pleasure and stimulus. Let the brain and body be trained through hand, foot, and eye, use the boy a carpenter's bench; encourage the girls to do housework.

Where possible, let both boy and girl have a little garden-plot, if only a few feet square, and the care of a few plants. A woman in her home a maid in her garden; this seems to be a fundamental type from which we cannot entirely depart without risk to body and mind. Cheerfulness, sincerity, industry, perseverance and unselfishness may be acquired by practice and constant repetition, as much as the art of correct speaking or of playing the piano, and are far more necessary to health.

### Powder in Gloves

**"M**Y FEET burn! What shall I do?" and the girl with the new shoes looked up most pathetically at her friend.

"Put powder in your shoes and stockings," answered the practical friend. "It will keep your feet from burning and also make the shoes easy to break in. I always dust a little talcum or baby-powder into my shoes and stockings before I put them on, and it seems to me that my shoes last twice as long as other people's."

Put powder in your gloves, too, especially those that fit your hands closely. It will make them easy to put on, and if your hands perspire, it will keep them dry and save the gloves. When you have them on, rub a little of the powder into the palms of your hands, and you will find your gloves last longer than those that have no powder in them.

## NOVEL SEWING RECEPTACLES

which is subdivided into receptacles for packages of needles, twins of silk, spools of cotton, tape measure, ribbon, buttons, lingerie ribbons, etc. The case is rolled and tied with a ribbon bow, the whole square having first been piped with the same ribbon. The little cardboard box case shown here will take up only a corner of your dressing table, and yet it will hold all your sewing materials. It consists of four flat boxes the same size and candy boxes will do as well as a padded shell of cardboard and tied fast with a wide satin ribbon. To the side of each are attached two buttons, which serve as handles. The box has a really a tin-lined drawer at the bottom.

Get busy now with these little cases for next Christmas. It is by no means early to think of them, but they will make most acceptable presents for the thimble, buttons, etc.

The invalid will appreciate a large working bag attached to the range of her rocking chair. It is made as shown, of dark denim or bright cretonne or chintz, with a row of small pockets at the bottom, a larger buttoned one above, and a wide bag forming the backing. Each pocket is edged with tape, and the whole is fastened to the chair by means of brass rings and tape.

A neat and compact traveling case is the one shown here. One side of the silk square is sewed down with cotton fannel, in which pins are stuck. In the middle are a large pocket for the scissors and smaller ones for emery and thimble. The other side is stitched over in a fan

The traveler, the invalid and the woman with limited space waiting for holders for their sewing. A few such novel ideas are, therefore, given here.

If you do much fancy work on porches or while calling, use the ribbon sewing case shown here. It has a ribbon band which fastens around the waist with hook and eye, and three ribbon hangers (the number can, of course, be increased with your needs).

The first is folded over and stitched into pockets, in each of which there is a spool of cotton or a roll of silk. A pair of scissors is attached at the end. The second is painted as a message, and has an emery at the bottom. The third is lined with cotton fannel and piped with narrow ribbon and holds a row of pins. At the end is a cushion for the feet. Even the loops at the top may be utilized for such things as sockets

## Athletic World

The November number of the Athletic World, published by W. J. Taylor, Limited, Woodstock, Ontario, which has just reached this office, is an exceptionally good one, and seems to indicate that the policy of steady improvement which this magazine has so far carried out so well will continue in the future. The various occurrences of interest in the Canadian sporting world are well described and attention is also paid to events in other countries, while practically every branch of sport is covered. Lovers of athletics will do well to get this number, in which will be found something to interest everyone, whatever field of sport he particularly favors.

## Motorman has close Call.

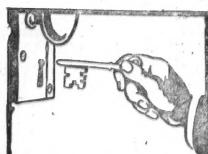

Irvine Hayes, motorman at the McGillivray mine had a close call on Tuesday morning. The motor climbed the rock rail rounding a curve and the motorman was thrown forward falling between the front car and the motor. Fortunately, he was caught by the coupling and held fast. He was dragged a short distance. His brakeman and the mine surveyor with the aid of a "scoop" extricated him. Dr. Porter was soon in attendance and Hayes was removed to the boarding house. It was found that the small bone of the leg was broken.

The Eagles meet on Saturday evening. There is important business and a full house is requested.

## Winnipeg Man.

Nov. 18th 1910.  
I hereby challenge either James Burrows of Blairmore, or William of Coleman to a fifteen round boxing match. A side bet of \$1000 to be posted before the match. Either party can name place and date.

Signed  
Chas. Robinson

## The Key to the Situation

If you are looking for a situation a Classified Want Ad. is the key which will unlock the door to the private office of the business man. He is too busy to interview all promiscuous callers, but you can catch his attention and secure an appointment by a "Situation Wanted" ad.

Hesitancy in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once, even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by All Dealers.

It is time of sudden mishap or accident that Chamberlain's Liniment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. When it is that Chamberlain's Liniment is never wanting. In cases of sprains, cuts, wounds and bruises Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by All Dealers.

## Synopsis of Canadian North-West Mining Regulations

COAL.—Coal mining rights may be leased for twenty-one years, renewable at an annual rental of \$1 an acre. Not more than 2,500 acres can be leased to one applicant. Royalty five cents per ton. The coal mining rights under 2,500 acres may also be reserved for a period of two years for prospecting purposes. Fee \$100.00. An expenditure of at least \$1 an acre must be made by recognized methods of prospecting each year.

QUARTZ.—A person eighteen years of age and over, having made a discovery may locate a claim 1,500 feet by 1,500. Fee, \$5. At least \$100.00 must be expended on the claim each year, or paid to the Mining Recorder. When \$500.00 has been expended and paid and other requirements complied with, the claim may be purchased at \$1 an acre.

PLACER MINING CLAIMS are 500 feet long and from 1,000 to 2,000 feet wide. Entry fee, \$5. Not less than \$100.00 must be expended in development work each year.

DREDGING.—Two leases of five miles each of a river may be issued to one applicant for a term of 20 years. Rental, \$10.00 a mile per annum, payable 24 per cent after the tenth year, \$10.00.
